CIYC WORK PARTIES 2010

February 6-7 and 13-14
9am – 4pm

Dear Members,

We are once again excited about the annual CIYC work party weekends. Although this will be a light load as work parties go, there is plenty of work ahead of us and we have scheduled just two weekends to complete it. This year's projects include lots of small repairs, cleaning, some painting, and a few touch ups. During the past few years the February work parties have saved the club many thousands of dollars that would have otherwise resulted in higher membership dues or assessments. So please, we need you to come and help.

February 6th & 7th will involve some painting and light fix-it up projects, while the 13th & 14th will involve a major cleanup. Also let us know if you are available for set-up on Friday, February 5.

As always, in addition to keeping the club in top condition, the work parties are a great opportunity to socialize with fellow members. This has also led to our repeated success in attracting potential new members who stop by during these work parties, and why we advertised these two weekends as "Open House" weekends. Please let your friends know that they are welcome to drop in, meet a few members, and experience our can-do spirit and Club pride.

Lunch will be provided and a reservation would help us in our planning. To signup for your favorite project or to let us know how you can help out, email Jim Lynch at JTL1017@aol.com, or call the clubhouse at 718 885-2487.

Can't make it to the work parties?

Each year dozens of CIYC members give of their time, sweat and know-how to make CIYC a better place for all of us to enjoy. If you are unable to lend a hand by attending at least one of the work parties, here's another important way you can do your share: Send a contribution to the CIYC Work Party Fund. Your contribution will help pay for materials and equipment used during the work parties. Please, if you can't be at the work parties, make a pledge today and send us a check (or we can charge your credit card on file)

I pledge (check one)
